

Managed File Transfer for Government and Public Sector

INDUSTRY SHEET

Establish a More Secure File Transfer Process for:

- Tax information
- Welfare payments
- Invoices
- Childcare records
- Regulatory reports
- Criminal records
- Application forms (e.g., passports)

AUTOMATION

Streamlines business operations with task scheduling.

- Minimizes human error caused by scripting
- Enables customization based on business processes
- Improves, tracks and manages workflows to deliver data to authorized recipients

SECURITY

Helps prevent sensitive data from being manipulated or ending up in the wrong hands.

- Encryption (in transit and at rest)
- Data integrity checks
- Non-repudiation

RELIABILITY

Provides a flexible, scalable architecture that adapts to growing business needs.

- High availability architecture
- Scalable for improved performance
- Disaster recovery to minimize downtime

CONTROL AND BROAD VISIBILITY

Offers visibility into where data is and who is accessing it.

- Powerful administrative controls and policy management
- Consistent delivery
- Alerts and dashboards
- File deletion scheduling based on access or shelf life

COMPLIANCE AND AUDITABILITY

Hardens against data loss/tampering and supports compliance with data protection standards.

- AES 256-bit encryption of files at rest
- Tamper-evident audit logs and reporting
- Compliance facilitation with PCI, GDPR, FISMA, GLBA and SOX

The Benefits of MOVEit for Government Departments and Agencies

Increased Productivity:

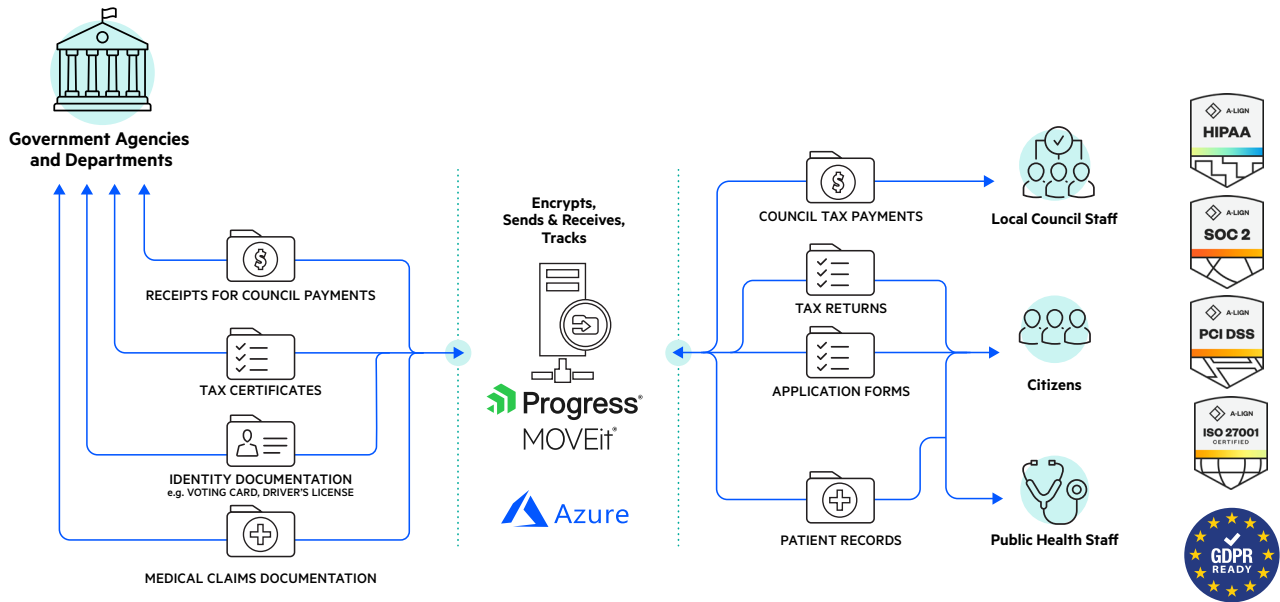

Save time and reduce human errors that lead to delays in community services with automated workflows.

Facilitate Reporting for Legal Compliance:

Enforce data governance, audit file transfer activities and comply with key regulations and standards.

Reduced the Risk of Confidential Data Loss:

Replace legacy file transfer tools and scripts with a centralized solution for better visibility, control, security and auditability of your data transfers.

MOVEit MFT Offerings

Progress® MOVEit® Cloud

- Advanced managed file transfer as-a-service
- Managed by Progress in Microsoft Azure
- Scalable, elastic service to meet changing requirements

Progress® MOVEit® Transfer

- Secure repository for sharing critical business data with external parties
- On-premises deployment for centralized control and increased visibility
- Compliant workflow for exchanging sensitive files

Progress® MOVEit® Automation

- Ability to push or pull files to/from any FTP, Unix, email or file server
- Greater alignment between data workflow schedules and critical business operations
- Development of tasks and workflows without the need for advanced programming skills
