

Managed File Transfer for Retail

INDUSTRY SHEET

Facilitate secure internal and external transfers of files containing personal and transactional data.

Retail organizations need to transfer files between their operations in a secure and auditable way as these files contain sensitive financial and business data.

Progress® MOVEit® Managed File Transfer software enables online retailers to exchange sensitive information, such as payment details, inventory reports and other private data more quickly and securely across multiple stores and offices. Robust encryption helps you comply with key cybersecurity standards and personal data protection regulations, while advanced automation streamlines the flow of order and payment files from start to finish. This reduces the risk of loss or theft of valuable business and customer data and creates a more secure digital experience for customers.

Establish a More Secure File Transfer Process for:

- Transferring data to suppliers, partners and subsidiaries
- Integration with secure banking transactions
- Support to e-commerce sites
- Sending billing and payment data
- Creating regulatory compliance reports

SECURITY

Help prevent sensitive data from being manipulated or ending up in the wrong hands.

- Encryption (in transit and at rest)
- Data integrity checks
- Non-repudiation

RELIABILITY

Leverage a flexible, scalable architecture that adapts to growing business needs.

- High availability architecture
- Scaling for improved performance
- Disaster recovery to minimize downtime

AUTOMATION

Schedule tasks to streamline business operations.

- Minimize human error caused by scripting
- Customize based on your business processes
- Improve, track and manage workflows to deliver data to authorized recipients

CONTROL AND BROAD VISIBILITY

Know where your data is and who is accessing it.

- Powerful administrative controls and policy management
- Consistent delivery
- Alerts and dashboards
- File deletion scheduling based on access or shelf life

COMPLIANCE AND AUDITABILITY

Harden against data loss/tampering and maintain compliance with data protection standards.

- AES 256-bit encryption of files at rest
- Tamper-evident audit logs and reporting
- Compliance facilitation with PCI, CCPA/CPRA and GDPR

The Benefits of MOVEit for Government Departments and Agencies

Increased Productivity:

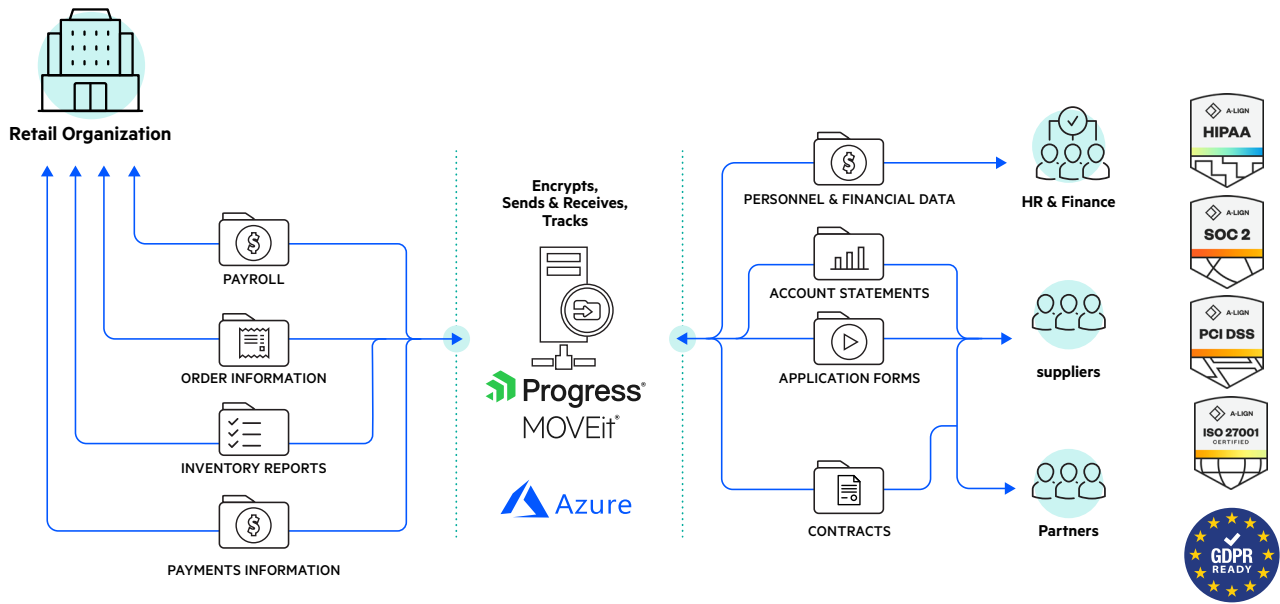

Save time and reduce human errors that could impact customer experience with automated workflows.

Ease of Compliance Reporting:

Gain broad visibility and control with reporting and audit trails of all transfer activities.

Reduced the Risk of Data Loss:

Protect consumer information and payment details with encryption for data at rest and in transit, whether you are sharing files with partners, resellers, customers or systems.

MOVEit MFT Offerings

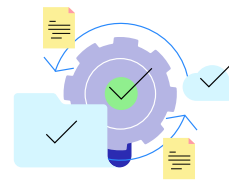

Progress® MOVEit® Cloud

- Advanced managed file transfer as-a-service
- Managed by Progress in Microsoft Azure
- Scalable, elastic service to meet changing requirements

Progress® MOVEit® Transfer

- Secure repository for sharing critical business data with external parties
- On-premises deployment for centralized control and increased visibility
- Compliant workflow for exchanging sensitive files

Progress® MOVEit® Automation

- Ability to push or pull files to/from any FTP, Unix, email or file server
- Greater alignment between data workflow schedules and critical business operations
- Development of tasks and workflows without the need for advanced programming skills
