Progress® MOVEit®

Managed File Transfer for Automotive

INDUSTRY SHEET

Many automotive organizations need to quickly and securely transfer data between thousands of internal and external users in a worldwide network.

Progress® MOVEit® Managed File Transfer software enables automotive manufacturers, automotive component manufacturers and suppliers and automotive retailers to exchange information with confidence. From design specifications, invoices and inventory reports to very large data files, such as videos and images, automotive organizations can transfer files quickly and securely across multiple manufacturing sites and dealer locations. This reduces the risk of loss or theft of valuable business data.

Establish a More Secure File Transfer Process for:

- Purchase orders
- Big data (e.g., design images and videos)
- Billing and payment data
- Contracts
- Manufacturing data

AUTOMATION
Schedule tasks to streamline business operations.

- Minimize human error caused by scripting
- Customize based on your business processes
- Improve, track and manage workflows to deliver data to authorized recipients

SECURITY
Help prevent sensitive data from being manipulated or ending up in the wrong hands.

- Encryption (in transit and at rest)
- Data integrity checks
- Non-repudiation

CONTROL AND BROAD VISIBILITY
Know where your data is and who is accessing it.

- Powerful administrative controls and policy management
- Consistent delivery
- Alerts and dashboards
- File deletion scheduling based on access or shelf life
- Ability to view, share, download and recall confidential attachments through an intuitive, secure add-in for Outlook

RELIABILITY
Leverage a flexible, scalable architecture that adapts to growing business needs.

- High availability architecture
- Scaling for improved performance
- Disaster recovery to minimize downtime

COMPLIANCE AND AUDITABILITY
Harden against data loss/tampering and maintain compliance with data protection standards.

- AES 256-bit encryption of files at rest
- Tamper-evident audit logs and reporting
- Compliance facilitation with PCI, HIPAA, CCPA/CPRA and GDPR

The Benefits of MOVEit for Automotive Organizations

Increased Productivity:
Automate the routing of critical files along the entire production cycle and between systems with easy drag-and-drop workflows and zero scripting.

Ease of Compliance Reporting:
Enforce data governance, audit file transfer activities and comply with key regulations and standards.
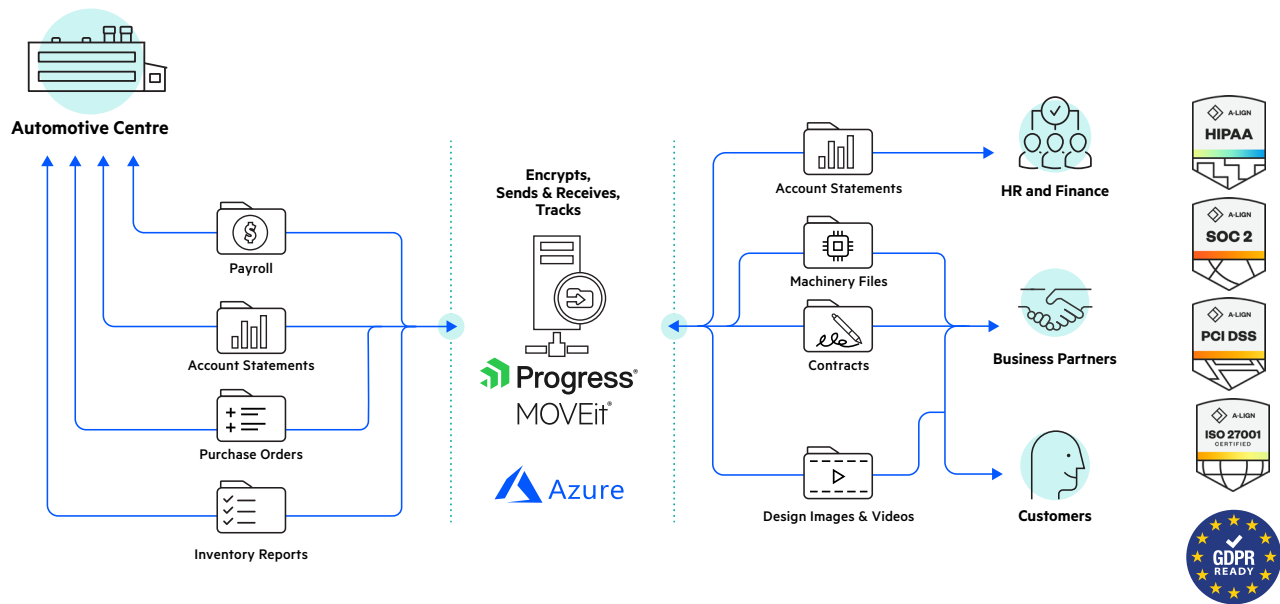

Reduced Risk of Data Loss:
Use centralized management to provide IT with visibility and control over file transfers with reporting and audit trails of transfer activities.

Enhanced Protection of Critical Data:
Help protect sensitive information with encryption for data at rest and in transit, whether you are sharing files with partners, suppliers, customers or systems.
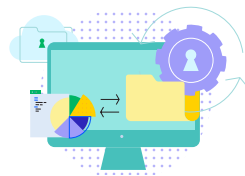

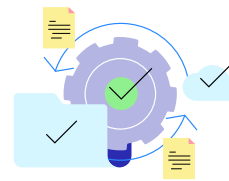

MOVEit MFT Offerings

Progress® MOVEit® Cloud

- Advanced managed file transfer as-a-service
- Managed by Progress in Microsoft Azure
- Scalable, elastic service to meet changing requirements

Progress® MOVEit® Transfer

- Secure repository for sharing critical business data with external parties
- On-premises deployment for centralized control and increased visibility
- Compliant workflow for exchanging sensitive files

Progress® MOVEit® Automation

- Ability to push or pull files to/from any FTP, Unix, email or file server
- Greater alignment between data workflow schedules and critical business operations
- Development of tasks and workflows without the need for advanced programming skills
