

MOVEit Gateway Implementation Services

DATA SHEET

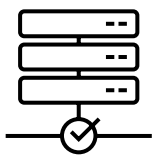

Multi-Layer Security for MOVEit Managed File Transfer

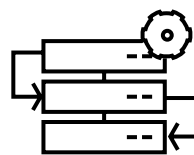

MOVEit Gateway provides a DMZ proxy function that enables MOVEit Transfer deployments within secured networks (behind the firewall) to meet the advanced compliance requirements often associated with data protection regulations such as GDPR, HIPAA, and PCI-DSS.

Progress Professional Services provides tailored Gateway Implementation Services to fit your business' needs.

Our core implementation service includes the following deliverables:

Installation of a single Gateway
Server

Configuration of a single
MOVEit Transfer to Gateway

Our Implementation Service allows your system administrators or support personnel to work with our Technical Consultants for up to 3-hours of installation and post-implementation support to accomplish the following:

Project Planning

- Discuss implementation strategy
- Verify prerequisites
- Schedule Activities

Implementation

- Install the MOVEit Gateway server software
- Configure the MOVEit Gateway settings on the MOVEit Transfer Server
- Initialize the secure connection between Transfer and Gateway
- Configure proxies with custom certificates, ports, or keys
