

WS_FTP to MOVEit Transfer Implementation Services

DATA SHEET

In today's business environment, the ability to transfer files securely within your business as well as with customers and partners is an absolute must. The MOVEit Managed File Transfer (MFT) software suite from Progress is used by thousands of organizations around the world to provide complete visibility and control over file transfer activities. Assure the reliability of core business processes as well as the secure and compliant transfer of sensitive data between partners, customers, users and systems with MOVEit.

If your file transfer needs have shifted, Progress Professional Services can assist you with your business's transition from WS_FTP to MOVEit Transfer. Making the switch will empower your business's ability to move critical data securely and in compliance with Service Level Agreements (SLA), internal governance and regulatory requirements like PCI, HIPAA and GDPR.

Our team offers two MOVEit Transfer Implementation Service options, which include:

WS_FTP to MOVEit Transfer Standard Implementation Service (up to an 8-hour engagement)
