

# Brocacef Automates Healthcare Reimbursements and Drug Pricing with Progress Corticon

AT A GLANCE

The Brocacef Group, a leading distributor of pharmaceuticals and owner of a large chain of Dutch pharmacies, implemented Progress<sup>®</sup>Corticon<sup>®</sup> to manage a complex healthcare reimbursement system involving millions of price calculations per year.

**COMPANY**  
Brocacef Group

**INDUSTRY**  
Pharma

**PRODUCT**  
Progress Corticon

**COUNTRY**  
The Netherlands

## Challenge

Faced with a short timeline to update health insurance prices and procedures every year, Brocacef Group needed an agile approach to its hard-coded rules, while mitigating the risk of wrongly dispensed drugs.

**Corticon helps us manage a really difficult, complex process within an extremely short amount of time.”**

**Casper Otto,**  
Director Technology  
and Applications Brocacef Group

## Solution

A business rules engine to power a flexible decision system, easily maintained by the business.

Automatically perform production price calculation and apply discounts.

Create use case scenarios to test all rules are implemented correctly.

## Results

Slashed time to implement rule changes from 1.5 weeks to 1.5 hours.

Increasing profitability and customer satisfaction.

Brought down medication and calculation errors to nearly zero.

**Manage Business Rules Outside the Application, without Coding.**
