

AKIOMA Slashes Dev Time, Simplifies Rules Complexity with Progress Corticon.js

AT A GLANCE

When international low-code/no-code leader, AKIOMA, wanted to accelerate time to market while elevating web UI logic, Progress Corticon.js was the best, and only, solution.

COMPANY
AKIOMA

INDUSTRY
Software

PRODUCT
Progress[®] Corticon.js[®]

COUNTRY
Germany

Challenge

Complex rules requirements were outpacing web browsers' ability to keep pace, leading to UI command delays and manual web UI coding.

“To achieve this level of automation and low-code/no-code possibilities would simply not have been possible for us without Corticon.js.”

Mike Liewehr
Founder and CEO, AKIOMA

Solution

Integrated directly into the AKIOMA.SWAT! framework

Accelerated performance of browser-based UI logic

Enhanced no-code web UI capabilities

Results

90% Cut in web UI development time

98% Faster command response time—down to 10 milliseconds

Reduced need for ongoing developer oversight

Bring the speed and power of Progress Corticon.js to your web UI project
