COMPANY
iTether

INDUSTRY
Healthcare

PRODUCT
Progress Health Cloud,
Progress Kinvey

COUNTRY
United States

CHALLENGE

People with substance abuse disorder each have their own unique patterns of abuse, but treatment protocols often aren't personalized to address these differences.

SOLUTION

Progress Health Cloud offers a proven serverless backend for faster time to market

Integration accelerators enable iTether to quickly integrate its platform with 3rd party services

With built-in HIPAA compliance, Progress Health Cloud helps save time and money

RESULTS

2-3
time faster

Stood up patient platform in 5 months—2-3 times faster than building from scratch

85%
user satisfaction

85% of patients using programs built with iTether reported better understanding of recovery of options

Hundred of hours and thousands of dollars saved trying to meet regulatory guidelines

“Getting to market quickly was a necessity and Progress helped us go from design to the general release of an enterprise application in less than five months.”

SEAN GUNDERSON
CEO & CO-FOUNDER, ITETHER

Accelerate the delivery of innovative, HIPAA-compliant healthcare apps with Progress Health Cloud.
