

# OSIV Focuses on Future Security with Progress OpenEdge

AT A GLANCE

The OSIV-Pool coordinated with the Progress team to modernize its Progress® OpenEdge®-based client server architecture, replacing it with a web application equipped to move the organization forward.

COMPANY  
OSIV-Pool

INDUSTRY  
Government

PRODUCT  
Progress OpenEdge

COUNTRY  
Switzerland

## Challenge

Updating the entire infrastructure of a major Swiss disability insurance organization to meet new government requirements, while remaining fully operational throughout the project.

Progress has fully met our high standards as a provider of a critical solution.”

**Stefan Geyer**  
Managing Director of OSIV-Pool

## Solution

Modernized OpenEdge and its business logic

Developed a new flexible web application

Maintained database access throughout project

## Results

Enabled both on-premises and cloud operation—with full security features

Delivered project while remaining completely online

Prepared, assessed, validated and launched project successfully
