Progress®

Applications & Experiences That Set You Apart

Progress is the experienced, trusted provider of software infrastructure products designed with you, our customers and partners, in mind. With Progress, you can develop what you need, deploy where and how you want, then manage it all safely and securely.

With Progress, your business can drive faster cycles of innovation and fuel the momentum you need to succeed in an ever-evolving marketplace.

Putting You at the Center

Progress has such staying power because all we do is built around you—our customers. Your business. Your applications. Your experiences. Your goals. From our products to the expert support available when you need it, we strive to fuel your momentum.

Regardless of where your business needs sit on the app development lifecycle, our people, skills and technology are here to serve you. This customer promise applies to you, whether you're a global corporation, vibrant startup or passionate developer seeking ways to get your projects done right—andon time. Progress can help get where you want to go.

Progress That's Built Around You.

Who We Are

Our Vision
To propel business forward in a technology-driven world.

Our Mission
To be the trusted provider of the best products to develop, deploy and manage high-impact applications.

Investing with Purpose

Progress invests about 20% of our revenue back into research and development, keeping us on-point when it comes to tech advances sweeping the marketplace. This ensures we have the insight to know which innovations are meaningful, and which are fads of the day. Having a disciplined approach has made Progress a good choice for businesses since we were first listed on the NASDAQ more than thirty years ago.

of the 25 largest companies in the world trust Progress

Top 10
technology companies rely on Progress

70%
of the Fortune 500 use Progress

Enterprises Worldwide Rely on Progress

BW | Best Western Hotels & Resorts   Prudential   LexisNexis   SAP

Our Products

With Progress, businesses can automate the process by which apps are developed, deployed and managed. This makes critical data and content more accessible and secure, leading to both competitive differentiation and business success.

Develop

Design · Plan · Code · Secure · Test

Deploy

Manage

Release · Monitor · Operate · Optimize

Develop

Telerik®

The most powerful collection of .NET and JavaScript developer tools, including modern, feature-rich and professionally designed UI components for web, desktop and mobile applications, embedded reporting, automated testing, mocking and debugging tools.

Kendo UI®

JavaScript UI libraries built natively for Angular, React, Vue and jQuery. Built with consistent API and theming, so your UI is modern, responsive, accessible—and fast.

Sitefinity®

Digital Experience Platform foundation, delivering intelligent, ROI-driving tools for marketers and an extensible platform for developers to create engaging, cross-channel digital experiences.

NativeChat®

Chatbot building platform to rapidly create and deploy purpose-built, AI-driven chatbots to automate repetitive tasks by using natural language interfaces.

Corticon®

Decision automation platform to transform user experiences by streamlining and automating complex business rules—without having to code.

Deploy

Chef®

Automation software to achieve secure, continuous delivery of critical applications and infrastructure.

Test Studio®

Automated functional UI, API and load testing platform with the industry's most intuitive test recorder and patented hybrid element location, maximizing test stability and coverage across web and desktop.

Fiddler™ Everywhere

Modern, cross-platform web debugging proxy for rapidly and reliably debugging HTTP(S) network traffic on Windows, Mac and Linux.

Manage

LoadMaster®

Flexible application delivery and security solutions offering cloud-native, virtual and hardware load balancers.

Flowmon®

Comprehensive network security and visibility solution with automated response across hybrid cloud ecosystems.

WhatsUp® Gold

Network infrastructure monitoring software providing complete visibility of all network devices, servers, virtual machines, cloud and wireless environments to quickly find and fix network problems before users are impacted.

MOVEit®

Managed File Transfer and automation software that guarantees the security of sensitive files both at-rest and in-transit, ensures reliable business processes and addresses data security compliance requirements.

WS_FTP®

Business-grade FTP software for secure file transfer, featuring industry-leading data security before, during and after transit.

Mission Critical Data and App Platform

OpenEdge®

Application development platform for running business-critical applications needing high-performance, high availability and flexible deployment options for extensibility, scalability, security and performance.

DataDirect®

Pre-built cloud and on-premises data connectivity solutions for Relational, NoSQL, Big Data and SaaS data sources.

Develop the applications and experiences your business needs with Progress.
