

Course title

Using Corticon Business Rules in a Progress OpenEdge Application

Course duration

Equivalent to 4 hours of instructor-led training

Audience

This course is for OpenEdge ABL developers and solution developers.

Description

In this course, you will learn how to use Corticon's business rules in an OpenEdge application. First you will learn how to set up an integrated development environment that contains OpenEdge and Corticon. Then you will learn how to export a Business Rules Vocabulary Definition from an OpenEdge application. Finally, you will learn how to use a Corticon decision service from an OpenEdge application.

The materials that you receive with this course include a Course Guide, which includes hands-on lab exercises and step-by-step solutions, and a CD with example code and exercise files with solutions.

This course is also available online with a subscription to the [Progress Education Community](#).

Version compatibility

This course is compatible with Progress OpenEdge 11.3.

Role-based learning path
