Challenge

Drowning in administrative tasks, SAO needed to craft a SaaS solution delivering powerful database access, seamless usability and reporting.

“The best part of working with Progress is the confidence we gain: the database is stable, our web environment is secure and it’s all in one place.”

Jorge Ivan
SAO Technology & Cia. S.a.s

Solution

Connected its backend web architecture to Progress OpenEdge

Transformed its 4GL infrastructure to REST services

Refreshed its front-end UI and reporting using Progress Telerik

Results

Streamlined manual administration

Improved web processing from 40 to 3 seconds

Enhanced data access and security

Achieve SaaS productivity and elegance with Progress OpenEdge and Progress Telerik
