

Managed File Transfer for Healthcare

INDUSTRY SHEET

Why Healthcare Organizations Choose MOVEit®

For sending data files that contain sensitive commercial or personal information, such as:

- Patient appointment reminders
- Medical reports
- Big data (e.g., medical images)
- Billing and payment data
- Regulatory compliance reports
- Compliance reports
- Claims submissions

File Transfer: A Mission-Critical Operation in Healthcare

The efficient movement of files between business partners in healthcare organizations accelerates payment eligibility inquiries, medical billing remits, patient reminders and other core business functions.

File transfers containing personal data must be secure to help prevent data breaches and the financial penalties and damage to reputation that they cause for organizations who fail to safeguard sensitive data.

Prioritizes Security

- Provides encryption of data at rest and in transit
- Enables FIPS 140-2 and AES-256-validated cryptography
- Allows staff to focus on sending business-critical data

Supports Compliance and Reporting

- Promotes GDPR readiness
- Facilitates GDPR, HIPAA and HITRUST compliance reporting
- Reduces effort and time spent preparing for compliance audits

Can Be Deployed in High-Availability Mode

- Enables system-wide high availability with Active-Passive failover
- Supports 99.9% uptime via cloud version
- Fosters business continuity and disaster recovery

The Benefits of MOVEit for Healthcare Organizations

Increased Productivity:

Ability for employees to easily share files of any size and type with internal and external users

Ease of Compliance Reporting:

Support for compliance with regulations and standards, such as GDPR, PCI, HIPAA, HITECH

Reduced the Risk of Data Loss:

Increased visibility, control, security and auditability of your data transfers

Trusted by Healthcare Professionals

Secure Data Transfer
