Deployment Options for MOVEit® File Transfer

DATA SHEET

Whether you wish to leverage the cloud or operate your Progress® MOVEit® Managed File Transfer (MFT) software on-premises, Progress provides a MOVEit Transfer deployment option to suit your needs.

Deployment Flexibility to Match the Needs of Your Enterprise

Progress® MOVEit® Transfer is available through three different deployment models. Customers can choose the deployment model that best serves their needs with regard to budget, resource constraints (infrastructure and personnel), scalability and geographic location requirements.

Deployment Options at-a-Glance

Each deployment scenario offers different levels of support for managing infrastructure requirements for your MOVEit Transfer instance.

MOVEit On-Premises	MOVEit On Azure	Progress MOVEit Cloud
On-Premises	**Infrastructure as a Service (IaaS)**	**Software as a Service (SaaS)**
IT teams exercise full control over new and existing infrastructure	Self-hosted hosted on Microsoft Azure	Fully managed service (infrastructure and MOVEit software managed by Progress)
Purchase MOVEit software from Progress and install/upgrade/patch as needed	Purchase MOVEit software from Progress and install/upgrade/patch as needed	GDPR-ready
	Control over geographic location of deployment	PCI-certified
	Scale infrastructure resources based on business needs	HIPAA-certified
		SOC 2-certified
		Scale usage based on business needs
ON-PREMISES DEPLOYMENT Broad control over the implementation of your MOVEit MFT solution (infrastructure and MOVEit software) Best suited for customers who: • Choose to leverage existing infrastructure resources • Must operate within a closed IT environment due to restrictions on public cloud use • Require cloud-based applications to be hosted from within their country's geographic border	**INFRASTRUCTURE AS A SERVICE (IAAS) DEPLOYMENT** Leverage public cloud resources for your infrastructure. Broad control over your MOVEit software Best suited for customers who: • Choose to leverage Microsoft Azure public cloud to manage and maintain their infrastructure • Require the flexibility to deploy a MOVEit Transfer instance in an Azure data center location closer to them • Need to scale the consumption of computing resources up or down to meet business needs	**SOFTWARE AS A SERVICE (SAAS) DEPLOYMENT** Fully managed cloud-based services Best suited for customers who: • Move their software applications to the cloud to reduce IT resource overhead • Eliminate time spent managing software and security updates • Need to scale the consumption and cost of their MFT solution up or down to meet business needs

What Makes MOVEit a Powerful MFT Solution?

INCREASED SECURITY

Helps prevent sensitive data from being manipulated or ending up in the wrong hands.

- Encryption (in transit and at rest)
- Data integrity checks
- Non-repudiation

RELIABILITY

Provides a flexible, scalable architecture that adapts to growing business needs.

- High availability architecture
- Scaling for improved performance
- Disaster recovery to minimize downtime

COMPLIANCE AND AUDITABILITY

Hardens against data loss/tampering and supports compliance with data protection standards.

- AES 256-bit encryption of files at rest
- Tamper-evident audit logs and reporting
- Helps facilitate compliance with PCI, HIPAA, CCPA/CPRA and GDPR

AUTOMATION

Streamlines business operations with task scheduling via MOVEit Automation.

- Minimizes human error caused by scripting
- Enables customization based on business processes
- Improves, tracks and manages workflows to deliver data to authorized recipients

BETTER CONTROL AND VISIBILITY

Promotes visibility of where data is and who is accessing it.

- Powerful administrative controls and policy management
- Consistent delivery
- Alerts and dashboards
- File deletion scheduling based on access or shelf life
