Progress® OpenEdge®

A Winning Combination:

Creating The World's Leading Business Applications

OVERVIEW

Progress OpenEdge: The Foundation of Digital Business

Progress® OpenEdge® gives developers the ability to build and protect beautiful applications and deploy across any platform and mobile device—on-premise, cloud, or hybrid. With OpenEdge technology and services, organizations can readily extend transaction-oriented systems into ad hoc applications that capitalize on technology trends and deliver transformative business results, opening new markets and optimizing profits. As one of the leading and most cost-effective rapid application development platforms, it is architected to help businesses meet the demands of the digital age.

Our partnership with over 1,400 business application providers worldwide offers a win-win combination. We focus on performance, reliability, scalability, flexibility and low cost of ownership, allowing our application partners to quickly deliver industry applications that help keep pace with your ever-changing business needs.
