

## OpenEdge Developers Kit

The OpenEdge Developers Kit (OEDK) includes the latest Major release of OpenEdge development products. The additional content varies according to the Edition to which you have subscribed and may cover all supported versions for all supported platforms.

### **OEDK Release 11.7 includes OpenEdge 11.7 products.**

Subsequent Service Packs, if and when they become available, such as OpenEdge 11.7.1, are made available on the Download Center.

Additional non-OpenEdge products included by Progress in a specific Edition of the OEDK are compatible with the release level of the development products. Since the OEDK is licensed under a subscription model (except for the Classroom Edition, which is subscription-free), customers must renew at the end of the subscription period to continue development. You can install the software on as many machines and for as many developers as your OEDK Subscription covers, but each developer must have a Progress ID registered with Progress Software. Your organization may choose to purchase a multi-user subscription plan for each Edition and they may choose to purchase multiple subscription plans for different Editions.

Should you require an OEDK Retired Version Add-on Edition for a different version, such as OpenEdge 11.3 or OpenEdge 10.1C then please contact your Sales Representative to check availability and pricing.

The following table lists the specific products in each OEDK Edition for Release 11.7, and how they are licensed—whether by number of registered clients, CPUs, connections, or machines. It also details the platforms and versions for which the products are made available with each Edition.

The contents of OEDK Edition for Release 11.6 are similar, but do not contain any of the Release 11.7 versions or new components, that are marked in **green**. Where the version is shown as **latest**, then for OEDK 11.6 it is OpenEdge 11.6 and for OEDK 11.7 it is OpenEdge 11.7

## Available Editions and Products

The following table lists the specific products in each OEDK Edition and how they are licensed —whether by named users, connections, or machines. It also details the versions for which the products are made available with each Edition.

<b>Edition: Classroom</b>			
	License Model	Versions	Platform
Progress Developer Studio for OpenEdge	1 Named User	<b>11.7</b>	Win-64
PROMSGS & Supplemental PROMSGS	Not Applicable	<b>11.7</b>	Win-64

<b>Editions: Basic, Corporate &amp; Premier</b>		Versions available by Edition		
	License Model	Basic	Corporate	Premier
Progress Developer Studio for OpenEdge	1 Named User	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B
Progress OpenEdge Personal RDBMS	1 Named User	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B
Progress OpenEdge Workgroup RDBMS	Up to 50 Connections	<b>latest</b>	<b>latest</b>	<b>11.7</b> , 11.6, 11.5, 11.4, 10.2B
