Introduction

Every OpenEdge Developers Kit (OEDK) Edition includes the specified Long Term Supported (LTS) release of OpenEdge development products. For example, OEDK Release 12.8 includes OpenEdge 12.8 products. OEDK Release 12.2 includes OpenEdge 12.2 products but does not contain any OpenEdge 12.8 products.

OEDK Release 12.8 includes OpenEdge 12.8 LTS products.

OEDK Release 12.2 includes OpenEdge 12.2 LTS products.

The **Premier** and **Innovator** Editions of OEDK only available for OpenEdge 12.8. This change was introduced to allow customers to get more value out of the Premier and Innovator editions for the same price, as these editions include the products for all the non-retired releases. Where available and explicitly stated, the active non-LTS release may also be included in your OEDK Edition.

Subsequent Updates, if and when they become available and denoted with a change to the third digits in the version number e.g. “12.8.7”, are posted on the [Download Center](#).

The additional OEDK content varies according to the Edition to which you have subscribed and may cover all supported versions for all supported platforms.

Additional non-OpenEdge products included by Progress in a specific Edition of the OEDK are compatible with the release level of the development products. Since the OEDK is licensed under a subscription model (except for the Classroom Edition, which is subscription-free), customers must renew at the end of the subscription period to continue development. You can install the software on as many machines and for as many developers as your OEDK Subscription covers, but each developer must have a Progress ID registered with Progress Software (www.progress.com). Your organization may choose to purchase a multi-user subscription plan for each Edition, and they may choose to purchase multiple subscription plans for different Editions.

Should you require an OEDK Retired Version Add-on Edition for a different version, such as OpenEdge 11.7 or OpenEdge 10.2B then please contact your Sales Representative to check availability and pricing.

The contents of OEDK Edition for Release 11.7 Add-On Kit do not include new components introduced in the 12.0 and later releases.

The following tables list the specific products in each OEDK Edition, and how they are licensed — whether by number of registered clients, CPUs, connections, or machines. They also detail the platforms and versions for which the products are made available with each Edition.

Available Editions and Products

The following table lists the specific products in each OEDK Edition and how they are licensed — whether by named users, connections, or machines. It also details the versions for which the products are made available with each Edition.

Edition: Classroom			
	License Model	Versions	Platform
Progress Developer Studio for OpenEdge	1 Named User	12.8	Microsoft Windows 64-bit
PROMSGS & Supplemental PROMSGS	Not Applicable	12.8	Microsoft Windows 64-bit

Note: OEDK Classroom Edition is only offered for the latest LTS release.

Editions: Basic, Corporate & Premier		Versions available by Edition				
	License Model	Basic 12.2	Corporate 12.2	Basic 12.8	Corporate 12.8	Premier 12.8
Progress Developer Studio for OpenEdge (PDSOE)	1 Named User	12.2	12.2	12.8	12.8	12.8, 12.2
Progress OpenEdge Studio	1 Named User					12.8, 12.2
Progress 4GL Development System	1 Named User					12.8, 12.2
Progress OpenEdge Personal RDBMS	1 Named User	12.2	12.2	12.8	12.8	12.8, 12.2
Progress OpenEdge Workgroup RDBMS	Up to 50 concurrent connections	12.2	12.2	12.8	12.8	12.8, 12.2
Progress OpenEdge Enterprise RDBMS	Up to 300 concurrent connections		12.2		12.8	12.8, 12.2
Progress OpenEdge Advanced Enterprise RDBMS	Up to 300 concurrent connections					12.8, 12.2
Progress OpenEdge Advanced Security	Unlimited					12.8

Editions: Basic, Corporate & Premier		Versions available by Edition				
	License Model	Basic 12.2	Corporate 12.2	Basic 12.8	Corporate 12.8	Premier 12.8
Progress OpenEdge CDC for Workgroup	Up to 50 concurrent connections	12.2	12.2	12.8	12.8	12.8, 12.2
Progress OpenEdge CDC for Enterprise	Up to 300 concurrent connections		12.2		12.8	12.8
Progress Application Server (PAS) for OpenEdge - Development	1 agent with 5 sessions	12.2	12.2	12.8	12.8	12.8, 12.2
Progress Application Server (PAS) for OpenEdge - Production	Unlimited		12.2		12.8	12.8, 12.2
Progress OpenEdge Authentication Gateway	Unlimited	12.2	12.2	12.8	12.8	12.8, 12.2
Progress Client Networking	Up to 50 database connections	12.2	12.2	12.8	12.8	12.8, 12.2
Progress Query/Results	1 Named User	12.2	12.2	12.8	12.8	12.8, 12.2
Progress OpenEdge Management	Up to 300 Connections					12.8, 12.2
Progress OpenEdge Command Center ¹	Unlimited	2.0	2.0	2.0	2.0	2.0
Progress OpenEdge DataServer for Microsoft SQL Server	Up to 300 database connections		12.2		12.8	12.8, 12.2
Progress OpenEdge DataServer for Oracle	Up to 300 database connections		12.2		12.8	12.8, 12.2

¹ The customer is entitled to the latest release available on the ESD Download Center. The table lists the latest current version available at the time of publishing this document.

Edition: Innovator

The same as the Premier Edition, plus

- Hybrid Data Pipeline (4709) with 1 server, unlimited cores plus all available data sources.
- Autonomous REST Connector (9883 and 9869) for 1 Workstation Auth User or 1 Server

Additional Development and Deployment Components

Additional products free to download for all available platforms, for all Editions (except Classroom)	License Model	Versions
Progress OpenEdge WebClient	Up to 300 server connections	12.8, 12.2
Progress OpenEdge JMS Adapter	Not Applicable	12.8, 12.2
Progress OpenEdge Adapter for Sonic ESB	Not Applicable	12.8, 12.2
PROMSGS & Supplemental PROMSGS	Not Applicable	12.8, 12.2
Progress SQL Client Access	Not Applicable	12.8, 12.2

Note: WebClient and the OEDK products that are licensed on a connection or machine basis remain fixed at the quantity described above, regardless of the number of OEDK Licenses acquired.

Available Platforms

The OEDK software is available on these platforms, depending upon the Edition and Version:

Microsoft Windows
Microsoft Windows 64-bit
Microsoft Windows 32-bit ^{2, 3}
Unix
IBM® AIX® 64-bit ⁴
Sun® Solaris™ SPARC 64-bit ⁵
Linux
Linux Intel 64-bit

² 32-bit variant of Client Networking, WebClient, DataServer for MS SQL Server and DataServer for Oracle are included with OEDK 12.2 and onward releases that can be installed on a supported Microsoft Windows 32-bit Operating System.

³ As of 12.2.5, 32-bit and 64-bit versions of AppBuilder are included in Progress 4GL Development System

⁴ OpenEdge 12.6 and later releases are not available on IBM® AIX® Operating System. OpenEdge 12 Platform and Product Availability Guide is available in the [Progress OpenEdge Information Hub](#).

⁵ OpenEdge 12.5 and later releases are not available on Sun® Solaris™ Operating System. OpenEdge 12 Platform and Product Availability Guide is available in the [Progress OpenEdge Information Hub](#).
