Progress® OpenEdge®

FDM4 Continuously Evolves Its OpenEdge-Based Business Solutions Platform

AT A GLANCE

FDM4
ERP WMS E-COM CRM

FDM4 offers software and business management solutions for distributors and manufacturers across various industries including apparel, product decoration, hardgoods, etc. A Progress® OpenEdge® customer for more than 30 years, FDM4 stakes its future on continuously evolving and modernizing its OpenEdge platform to expand into new markets and offer its customer base market-leading features and functionality.

COMPANY FDM4	**INDUSTRY** Technology and Software
PRODUCT Progress® OpenEdge® Progress® Kendo UI®	**COUNTRY** United States and Canad

Challenge

With fast-changing consumer tastes and preferences, supply chain fluctuations and rising materials and distribution costs, the apparel industry is full of challenges.

"Progress has grown with us along the way as we've transformed with new, modern technologies to serve customers in today's data-driven world."

Mike Cutsey
President, FDM4

Solution

Continuously evolve and modernize its Progress OpenEdge-based business solutions platform to meet changing market needs.

Deploy tools like Progress® Kendo UI® to deliver modern UI that enhances the end user digital experience.

Partner with Progress teams to maximize their technology investment.

Results

Expanded its offerings through the years from ERP to e-commerce, warehousing, CRM and more.

Bolstered its market presence with expansion into the decoration market, a key component of the apparel product lifecycle.

Realized continuous growth with a steadfast commitment to developing modern, state-of-the-art solutions on the OpenEdge platform.
