Progress® MOVEit®

Milwaukee County Centralizes Dozens of File Transfer Systems on Progress® MOVEit®

AT A GLANCE

When Milwaukee County wanted to boost technological efficiency to better achieve its public service mission, standardizing data file transfer on Progress® MOVEit® was the obvious choice.

COMPANY
Milwaukee County

INDUSTRY
Government

PRODUCT
Progress® MOVEit®

COUNTRY
United States

Challenge

Milwaukee County had dozens of file transfer solutions used across their departments, which required manual work, custom coding and a huge time commitment.

"When we compared MOVEit to other vendors, they didn't even come close."

Ryan Schmidt
IT Manager, Applications

Solution

Progress® MOVEit® as the County's single solution that boosts technological efficiency and centralizes file transfer.

Ability to quickly onboard and integrate a wide variety of disparate data systems.

Progress® MOVEit® to support mission-critical data transfer, while also making that data trackable and secure to comply with regulations.

Results

Quick and seamless adoption of Progress® MOVEit® across different teams and departments.

Significant reduction in developer workload – automated file transfer has replaced manually transferring files and custom coding.

Established MOVEit as the County's file transfer standard.

Use Progress MOVEit to empower your organization with automated, reliable file transfer.
