Progress® Kendo UI®

Icanpreneur Launches First "Accelerator-as-a-Software" Platform, Leveraging Kendo UI for a Seamless Customer Experience

AT A GLANCE

Icanpreneur is using Kendo UI to build an AI-driven, first-of-its-kind Accelerator-as-a-Software platform, streamlining entrepreneurial journeys. The platform offers guided workflows, supporting tech entrepreneurs from ideation to product-market fit with intuitive, customizable UI components.

Challenge

Icanpreneur needed a scalable, consistent design system to build a UI-rich platform fast. They required multiple integrated tools with minimal development time and friction, aiming to launch within a couple of months and looking to establish product-market fit shortly after that.

"With KendoReact, we built a platform that seamlessly aligns with our boldest ambitions."

Vesko Kolev,
Founder & CEO, Icanpreneur

Solution

Efficient development with KendoReact component library and its comprehensive documentation.

Custom theme built with Kendo UI and CSS utilities.

Custom-tailored design system based on the Kendo UI Design Kits and front-end documentation.

Results

Accelerated development and reduced iteration cycles.

Consistent, flexible design with high customization options.

Responsive customer support enabling quick issue resolution.

Bring your ideas to life and deliver world-class products to your users with Kendo UI. **See what you can achieve with Kendo UI today.**
